Game description

Slurpy is a slot game with 5 columns by 5 rows with dropping symbols. The grid can expand up to 7 columns by 7 rows. The game has 6 collectors, multipliers, Wilds, double symbol, coins, long straw symbol and a super straw symbol.

The game consists of 6 collectors with corresponding payout symbols. Payout symbols connected to the corresponding collector with a cleared

path to the top row triggers a win. All connected symbols of the same type pays out and is then removed from the grid. Clear away all payout symbols and the grid will expand in 3 levels. First level 5x5 symbol grid, next level 6x6 symbol grid and last level 7x7 symbol grid.

The game starts with one collector in view and collects all matching payout symbols with a cleared path to the top row. If a win has occurred and no more winning symbols have a cleared path to the top row, a new collector is added to the game. The grid refills. The new collector collects matching payout symbols with a cleared path to the top row. When no more winning symbols can be collected and a win has happened since the newest collector appeared, the left most collector is removed and a new collector is added to the game. The game continues until the collectors in view are unable to collect more symbols.

All feature symbols, coins and bonus symbols triggers when they have a clear path to the top row.

Multiplier symbols adds to the global multiplier.

The global multiplier multiplies every win with its value.

The long straw collects matching payout symbols not connected to the top row.

The Super straw collects all matching payout symbols on the grid.

The bonus game is triggered by 3 collected bonus symbols to run 5 free drops. 1 new collected bonus symbol in the bonus game adds 2 additional free drops.

The super bonus game starts with 3 collectors and full expanded grid (7x7).

Game view

Bet amount and balance are always displayed in the info bar at the bottom of the game view in the currency that the player has chosen. This information is always available throughout the gaming session. Winnings are displayed in the selected currency in the middle of the info bar at the bottom of the game view when playing in landscape mode, and at the top of the game view when playing in portrait mode.

Paylines

- Winnings are presented in the player's currency or in coins. The player can change preference in Settings.
- Winnings are presented in the player's currency.
- The game is played in two modes; normal mode and bonus mode with free drops.
- The Wild symbols substitute for any paying symbol. A winning combination of only Wild symbols pays as the highest paying symbol.
- The game consists of 6 collectors with corresponding payout symbols. Payout symbols connected to the corresponding collector with a cleared path to the top row triggers a win. All connected symbols of the same type pays out and is then removed from the grid. Clear away all payout

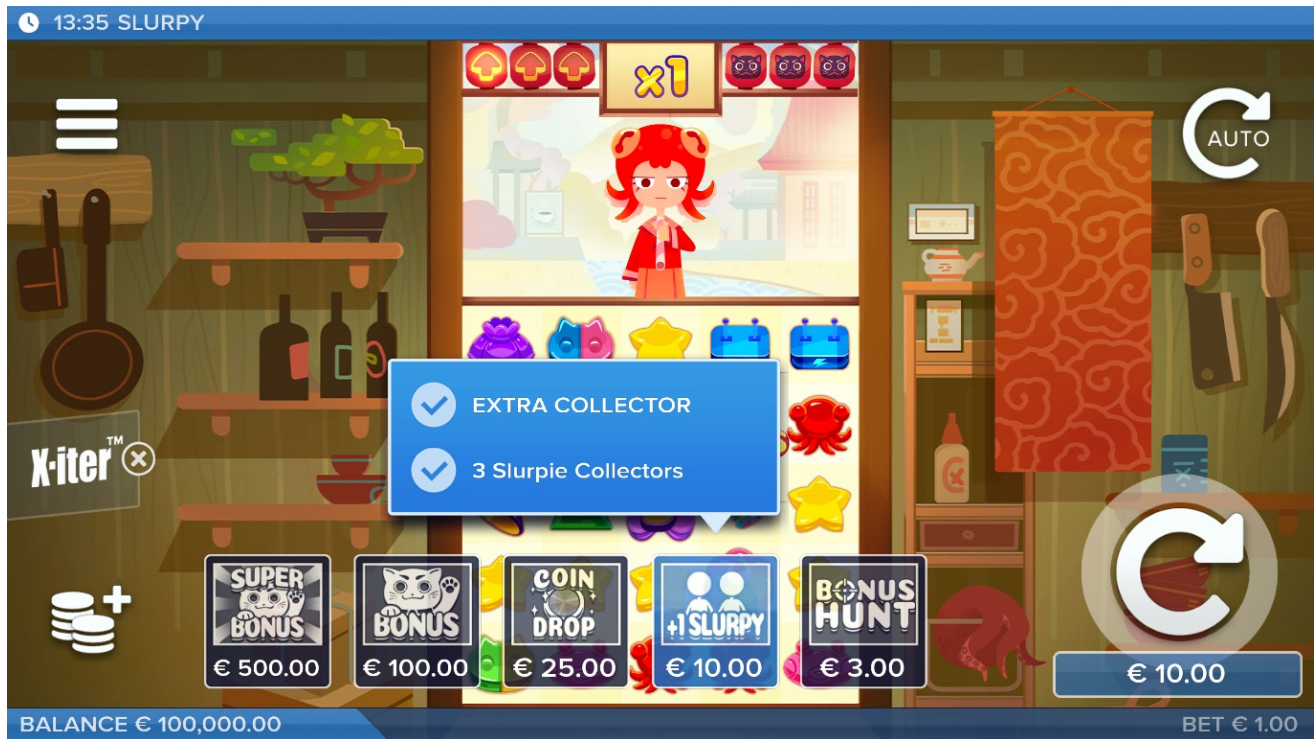

symbols and the grid will expand in 3 levels. First level 5x5 symbol grid, next level 6x6 symbol grid and last level 7x7 symbol grid.

The game starts with one collector in view and collects all matching payout symbols with a cleared path to the top row. If a win has occurred and no more winning symbols have a cleared path to the top row, a new collector is added to the game. The grid refills. The new collector collects matching payout symbols with a cleared path to the top row. When no more winning symbols can be collected and a win has happened since the newest collector appeared, the left most collector is removed and a new collector is added to the game. The game continues until the collectors in view are unable to collect more symbols.

- If the collectors in view are not matching the payout symbols and one of the other collectors could collect all remaining payout symbols on the grid, this will trigger the second chance feature. The left most collector will be removed, and a new collector will be added.
- All feature symbols, coins and bonus symbols triggers when there is a clear path to the top row.
- Removing all payout symbols in view increases the grid 1 level and to a maximum of 7x7 symbols. Removing all symbols on the maximum level 7x7 will increase the global multiplier with 5.
- Multiplier symbols add to the global multiplier when part of a winning combination.
- The global multiplier multiplies every win.
- Collecting the extra Slurpie symbol adds an additional collector to the game. 3 collectors in the game at the same time is the maximum amount of collectors.
- The Coin symbol pays its value times the selected bet level when it has a clear path to the top row.
- The super straw collects all matching payout symbols on the grid, when the matching symbols don't have a clear path to the top row.

- The long straw collects one matching cluster of payout symbols that are not connected to the top row.
- The double symbol can connect two different payout symbols.
- 3 collected bonus symbols triggers the 5 free drops bonus game.
- Number of collectors, grid size and the global multiplier remain when entering the bonus game and between free drops.
- The bonus game starts with a new set of symbols in the grid.
- To trigger the super bonus game one of the bonus symbols needs to be a super bonus symbol. In the super bonus you are awarded 3 collectors and a 7x7 symbol grid.
- 1 new collected bonus symbol in the bonus game adds 2 additional free drops.
- Winnings are paid out at the end of a game round.
- The maximum total win in a game round is capped at 5 000x the placed bet.
- A game round is immediately ended when the win cap is reached, and the wins collected so far will be paid out.
- No bets can be changed during a game round.
- The game will be capped at 5 000x the placed bet.
- The theoretical payout (RTP) is 94.0%.
- In the event of malfunction all bets and wins are void.
