To place a bet, click on the desired chip and then click the game table in the location you wish to place the chip. The chip will be added to your total bet. All bets must conform to the table limits. To remove a bet, select the 'X' chip and then click the chip you wish to remove. To remove all bets, click CLEAR ALL.

The roulette wheel contains 37 numbered ball pockets, alternatively coloured red and black. In addition to the numbers 1 through 36, the wheel includes a green 0. Place your bet(s) by clicking on a chip and then in the appropriate area on the betting table. Click SPIN to start the round and release the ball. You win if your bet covers the number on which the roulette ball stops.

If the ball lands on a number or colour that corresponds to your bet, you win according to the payout for that particular bet.

- 3) Default settings can be changed by the operator
- 4) If the default settings/bets are altered, the maximum wins will be altered as well
