GAME INFORMATION

Super Flip includes a wild symbol ("WILD") and a scatter symbol ("SUPER FLIP"). The wild symbol substitutes for any other reel symbol except the scatter symbol, to help comprise winning combinations.

Three or more SUPER FLIP scatter symbols on the reels trigger the free spins feature. During the free spins, the reels are flipped, putting the last reel first and the first reel last for an increased chance to win big! The free spins feature can be re-triggered up to a total of 90 spins by getting three or more SUPER FLIP scatter symbols on the reels at the same time during the feature. 15 additional spins are awarded each time the feature is re-triggered.

A near-win respin on the middle reel is triggered whenever you receive a full stack of any symbol on the first reel and a full stack of the same symbol (including wilds) on the second reel but no win is achieved on any of the active paylines or scatter symbols. The other reels are locked in place during the respin. The free spin feature can be triggered by the respin feature.

All symbols can appear on all reels during the main game, during the free spin feature and during the near-win respin feature.

All winnings from Features, Bonus games and/or Scatters are added to payline wins.
